shanir\_@hotmail.com

## Mål

Committed and adaptable professional with a proven track record across multiple industries, including IT, data analytics, teaching, and team leadership. Skilled in data management, process optimization, and implementing effective SOPs to improve operational efficiency. Skilled in software/hardware installation and troubleshooting, with experience providing technical training to professionals. I am currently developing my skills in web development to expand my IT expertise. Passionate about utilizing my technical and interpersonal skills to contribute to Sweden's growing need for IT professionals and drive meaningful results in a dynamic environment.
